### WEEKLY THEMES

**MIX AND MATCH May 29-June 1:** This week is a fun hodgepodge of activities ranging from water fun, STEM and engineering experiments, to wacky and gross science, and much more.

**WEATHER & SCIENCE June 4-June 8:** Learn all about weather and the science behind it. We will conduct different experiments that show us how weather works. A special guest will pay a visit this week.

**CRAZY ART June 11-June 15:** This isn't your normal art camp. We will paint with our feet, jump in paint puddles, paint with squirt guns, and make exploding art. It's too crazy to be done in schools.

**LOCAL HEROES June 18-June 22:** This week we learn all about our local heroes. From firefighters, to paramedics, even our United States military. We will have many guests this week.

**WIDE WORLD OF SPORTS June 25-June 29:** This camp is perfect for the athlete who enjoys a variety of sports and recreational games. Campers are taught skills and given the opportunity to compete in a variety of sports.

**LIGHTS, CAMERA, ACTION July 9-July 13:** Campers will learn all about what it takes to be on the big stage. They will learn about lighting, props, scripts, and much more. A special guest will pay a visit this week.

**ANIMAL PLANET July 16-July 20:** Join us as we answer the call of the wild in this summer's animal-themed adventure! We will have visits from many different animals this week.

**OUT OF THIS WORLD July 23-July 27:** Campers will take off into outer space this week. Campers will explore the depths of space through various experiments. A rocket launch will conclude the week.

**YOUNG CHEFS July 30-August 3:** It's time to get our cook and bake on. This week we take it to the kitchen with lunch and snack made by our very own campers. Do you have what it takes to be crowned our Top Young Chef?
