Frequently Asked Swimming Questions

How many children can be in a swim class?

Preschool Levels:

1 teacher/ 5 children

Levels 1 & 2:

1 teacher/ 6 children

Levels 3 & up:

1 teacher/ 8 children.

What swim level should my child be in?

Level placement is based on skill rather than age. Success and progression in swim lessons are best achieved when children are placed in the appropriate level for their skills. To assist you in choosing your child's level, listed with each level is the minimum skill requirement needed to be in that level.

How will my child get off a Stand-by List?

When a current enrolled member misses 2 classes, they will be taken off the roster and the space will be offered to the first person on the Stand-by List. Spaces will continue to be filled in order until halfway through the session. We will do our best to place children in classes, but please remember a spot on the Stand-by List does not guarantee a place in a class.
